Photochromic

Lenses quickly adapt to changing light to provide more comfortable vision, while protecting your eyes from UV and glare.

Premium No Glare Coating

No Glare. Scratch Resistant. Better Vision.

ZEISS Platinum Finish

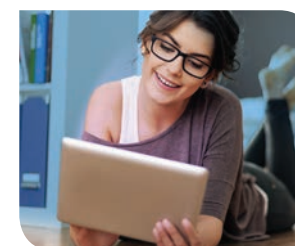

Nikon Eyes® TotalShield®

Blue Light Protection

Blue light protection reflects away and reduces exposure to harmful blue-violet light from digital devices, CFL, LED and other light sources.

ZEISS Platinum Blue Protector

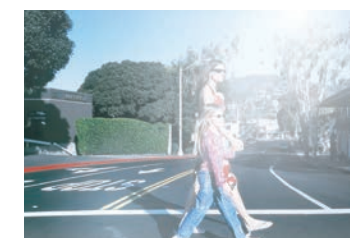

Polarized

Improve your view with Coppertone Lenses.

- Eliminate 97% or more of reflected glare.
- Provide more blue light protection than ordinary sun lenses.
- Block 100% UVA and UVB rays.
- Thin, light, and impact-resistant polycarbonate.

The Skin Cancer Foundation recommends this product as an effective UV filter for the eyes and surrounding skin.
